DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated Ohnishi (US 2002/0197067) for the same reason as the last office action dated 10/15/10.

Response to Arguments

1. Applicant's arguments filed 1/12/11 have been fully considered but they are not persuasive. Applicant argued that Ohnishi fails to expressly or inherently describe the combination of features as set forth in claim 1 because the Examiner is asserting that Ohnishi's "still picture data" corresponds to the "index information". The Examiner respectfully disagrees. The Examiner asserted that Ohnishi still data is the image data (e.g. see 501 in fig. 5), and the index information is the thumbnail (e.g. see 409 in fig. 5). This clearly shows that Ohnishi's "still picture data" does not corresponds to the "index information" but is an extended part of the thumbnail. Thus, Ohnishi discloses a first instruction issue task of issuing a first readout instruction (see 403-415 in fig. 5. Reading out all of the index/thumbnails from the image file) for reading out said index information from said image file; a second instruction issue task of issuing a second readout

instruction (see second readout 501 and 503 from 409 in fig. 5. Image data is read from index/thumbnail of the image file) for reading out the image data from said image file with reference to the index information read out in accordance with said first readout instruction. Therefore, the Examiner maintains all limitations are met.

Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
